- Plough
- Oceanographic equipment
- Deep sea corer
- Bathymetry, hydrology equipment
- Dredging
- Towing
- Etc...

Capacity is up to 50 Tonnes, and even more.

Kley France offers a possible certification from LRS, BV, GL, ABS, ...

RRS Discovery - Parallelogram frame 10 T./20 T.

Principal types

Several types are available :

- Standard simple rotation
- Parallelogram type
- Wallet type
- Double rotation (Kley France patent)

This last type permits large rotation angle (up to 170°) in order to catch the deployed equipment at sea level in a safer manner.

Double opening "A" frame on the Marion Dufresne.
